

## Mining and Financial News

BY REVIEW LEASED WIRE.

NEW YORK, March 14.—Revival of activity for rails, contributed in large degree to the occasional activity and variable strength of today's stock market.

Heading was the conspicuous feature at an extreme gain of 4 points to 84 1/2, the maximum quotation thus far this year. Dealings in that issue so far exceeded all other issues as to volume and activity. Other strong leaders included Norfolk and Western, Chesapeake and Ohio, Baltimore and Ohio, Lehigh Valley and Erie first preferred, gains ranging from 1 to 2 points.

Transcontinental, grangers and trunk line shares advanced later. Union Pacific, Atchafalaya, St. Paul, Illinois Central, Rock Island and New York Central leading these divisions by a point or more.

There was a tentative resumption of bullish operations by pools in the better known specialties, notably to better, oils, motors, American Can and low priced equipments where some advances of 1 to 2 points were shown on general realizing of the final hour.

Seasoned Industrials, including United States Steel, held within restricted limits. Metals were less prominent than usual. Sales \$25,000 shares.

Bonds were irregular to heavy including liberty issues. Sales, par value, \$2,475,000.

United States bonds, old issues, unchanged on call.

## GRAIN MARKET.

CHICAGO, March 14.—Rapid piling up of stocks at leading terminals did a good deal today to bring about a brisk in the value of corn. Prices edged heavy 1/4 to 3/4 to 1 cent lower with March, \$1.27, and May \$1.36 1/2. Oats fell 1/4 to 1/2 and provisions five to seven.

Railroad embargoes on eastbound shipments were largely responsible for the softness with which supplies of corn here and at other big centers appeared to be accumulating.

Elevator inventories were conspicuous on the bear side and there was talk of the possibility of huge deliveries on contracts.

Rats turned on account of the weakness of corn.

Provisions, the downward swing of coarse grain more than counteracted the effect of higher quotations here.

## COTTON MARKET.

NEW YORK, March 14.—Cotton edged slightly at a net decline of 9 to 15 cents.

## METAL MARKET.

NEW YORK, March 14.—Lead easy, \$7.37 to \$7.62. Spelter, quiet, \$8. East St. Louis delivery \$1.50 to \$1.55. Bar silver, 86 1/2.

## NEW YORK.

## CLIFTON IN LINE FOR SOCIAL BETTERMENT.

The spirit of a cleaner social life, which is being vigorously pushed in other towns, has reached Clifton. Each health and peace officer in the different communities of the state have received a copy of the state health laws in reference to the social evil. Clifton officers are in receipt of copies of these statutes, and it is stated that the chief of police has notified the denizens in the restricted districts to prepare to emigrate in a short time, as their stay in Clifton is numbered by days, and few of them.

## DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST.

Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous matter.

Everyone, whether ailing, sick or well, should each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness, others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

## WILLIAM S. HART IN "THE NARROW TRAIL" PICTURE AT CENTRAL

Western Drama One of Best Films in Which Artcraft Screen Star Has Appeared; Plays "Bad Man."

When Thomas H. Ince introduces his famous star, William S. Hart, to Central patrons of Artcraft pictures, he will depict a rare bit of life in the now silent "Barbary Coast." In "The Narrow Trail," at the Central theatre today only, Hart has the role of a west ern highwayman who ventures into a typical "honky-tonk" of a decade ago, and the motion picture audiences will be presented with graphic vividness the sensational features of night life that made this particular section of San Francisco notorious the world over.

Nothing like the Barbary Coast has ever been known. It occupied a niche of its own underworld history. Here all sorts of crimes were plotted and perpetrated. Here were drawn the dregs of criminal organizations from foreign lands, as well as this country, and here crimes thrived and blossomed and succeeded as nowhere else in all the world. Port Said, reputed to be a "bad town," was a kindergarten compared with San Francisco's Barbary Coast in its palmiest period. And it is this period that is so wonderfully reproduced in Hart's "The Narrow Trail."

An effort to "shanghai" the big, rugged western highwayman results in a fight that for sheer spectacular features has no parallel in screen battles.

Into the life of this outlaw comes a beautiful girl, his ideal of all that is good and pure. After the greatest fight he has ever experienced—a battle with himself—he gives up his following and hunts up the girl to start life anew. Suddenly his ideals strangle through a horrible revelation, he believes himself misled and his new faith in the good side of life is shattered.

Through the scenes which depict these evolutions in the career of this man of the prairie, William S. Hart travels with a realism that will mark him as a much greater actor than even his many thousands of ardent admirers proclaim him to be.

"The Narrow Trail" is the great film feature which was used by Grauman when he opened his million dollar Palace theatre in Los Angeles several weeks ago.

## WILLARD AND FULTON CONFER ABOUT TITLE RING BATTLE JULY 4

(By Review Leased Wire) KANSAS CITY, Mo., March 14.—Whether Jess Willard, heavyweight champion, and Fred Fulton of Minnesota, aspirant to the title, are to be matched for a bout July 4, remained problematical tonight, after a conference here today between Mike Collins, manager of Fulton and Colonel J. C. Miller, of Oklahoma, representing Willard.

The conference did not get beyond the financial discussion stage although the two men parted with the understanding that they would meet again. The sum mentioned was not divulged, but Fulton's manager said he was unable to consider the offer. At the conference, informed Miller that he would guarantee Willard \$100,000 to fight Fulton in New Orleans on July 4 nothing definite concerning the latter proposal has transpired.

## "SEE 'GETS-IT' PEEL OFF THIS CORN"

Leaves The Toe as Smooth as the Palm of Your Hand.

The corn never grew that "Gets-It" will not get it. It never irritates the flesh, never makes your toe sore. Just two drops of "Gets-It" and presto! the corn-pain vanishes. Shortly you can peel the corn right off.

It's Wonderful to See "Gets-It" Peel off with your finger as there you are—a pain-free and happy, with the toe as smooth and corn-free as your palm. "Gets-It" is the only safe way in the world to treat a corn or callus. It's the sure way—the way that never fails. It is tried and true—used by millions every year. It always works. "Gets-It" makes cutting and digging at a corn and fusing with bandages, knives or anything else entirely unnecessary.

"Gets-It" is sold by all druggists (even need pay no more than 25 cents) or it will be sent direct by E. Lawrence & Co., Chicago, Ill.

Sold in Bisbee and recommended as the world's best corn remedy by Phelps-Dodge Mercantile Co.

## COME THROUGH PLAYS TO CAPACITY CROWDS AT EAGLE SHOWHOUSE

Sensational Crook Film Is Well Liked By Fans Who Applaud Fight Scene At Climax of Picture.

"Come Through," the sensational New York crook play, packed them in at all performances at the Eagle theatre yesterday and last night and is expected to cause the S. R. O. sign to be hung out again today by the management.

From the start of the film to the great fight scene which brings the screen version of the famous play to a climax the audience were held spell-bound and the wonderful dramatic situations were applauded time after time as the movie fans were thrilled by the exciting moments of the film.

Herbert Rawlinson plays the lead in this great Jewel production filmed at Universal City, California's famous movie center, where some of the best screen stories of the past several years have been shot by camera artists.

Alice Lake, who plays opposite Herbert Rawlinson, captivated the crowds which yesterday thronged the Eagle showhouse and not least among the special features of the film is the fancy dance in which she appears.

The play was written by George Bronson Howard, producer of some of the best known dramas of the screen, and the play was filmed with a great care as to detail which gives it unusual punch.

## DON'T FUSS WITH MUSTARD PLASTERS!

Musterole Works Easier, Quicker and Without the Blister

There's no sense in mixing a mess of mustard, flour and water when you can easily relieve pain, soreness or stiffness with a little clean, white Musterole.

Musterole is made of pure oil of mustard and other helpful ingredients combined in the form of the present white ointment. It takes the place of out-of-date mustard plasters, and will not blister.

Musterole usually gives prompt relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bite, colds of the chest (if often prevented pneumonia).

30c and 60c jars; hospital size \$2.50.
